

# RACER'S CHOICE™

## Air Induction Systems

### Installation Instructions for 1989-1993 Ford Mustang 5.0L V8 Part # 3893

#### Parts Included:

- 1- MAC Filter
- 1- MAC Velocity Adaptor
- 1- MAC Air Chamber
- 1- MAC Air Tube
- 1- Step Connector
- 2- Silicone Hoses
- 6- Hose Clamps

1. Start by disconnecting the wire harness from the MAF sensor.
2. Next loosen the hose clamp on the stock air tube to throttle body.
3. Next loosen the bolts on the shock tower that connects to the MAF meter bracket.
4. Remove the two nuts that hold the stock air box in place.
5. Loosen the hose clamp on the stock air box to the MAF meter and remove the stock air box.
6. Remove the stock air tube with the MAF meter attached.
7. Remove the three bolts from the MAF meter, to remove the bracket.
8. Loosen both of the hose clamps on the MAF meter to remove both sides of the stock air tube.
9. Remove the two studs that held in the stock air box. And remove the three bolts that hold the inner fender air box in place. Now you can remove the it by pulling it out of the inner fender.
10. Install the silicone hose to the throttle body and tighten.
11. Install the velocity adaptor to the MAC air chamber and install the MAC filter.
12. Install the MAC air chamber in the stock location and bolt it in.
13. Install the step connector to the MAC velocity adaptor and tighten.
14. Install the silicone hose to the MAF meter and install the meter to the step connector and the MAC air tube.
15. Reconnect the wire harness to the MAF sensor.
16. Check to be sure that everything is tightened.
17. You are finished.
